Online Course Testimonials
October 2021**

"I've learnt so much from the first 3 weeks of this course, and I really appreciate the recordings to be able to take the time to re-listen to the Q&A. I particularly loved the summary in week 1 touching on Ram Dass' meditative stabilization techniques, and not seeing psychedelics as a 'cure all', but rather as a missing link for the community."

Sarah Chin

"This is drawing together so many threads of study and experience for me. I have appreciated your acknowledgement of the importance of establishing an understanding and familiarity with the experience of grounded-ness as a foundation for an altered-states experience so that it can be fully integrated in a helpful way."
